CONTACT INFORMATION	Lamont–Doherty Earth Observatory (845) 365-8687 Columbia University crone@ldeo.columbia.edu 61 Route 9W http://www.fluidcontinuity.org Palisades, NY 10964
RESEARCH INTERESTS	I am a marine geophysicist interested in the interplay between large-scale geophysical processes and the microbial biosphere. I am currently studying the nature of fluid flow variability within seafloor hydrothermal systems, with the hope of characterizing the effect of tidal and tectonic forces on hydrothermal convection at mid-ocean ridges. The ultimate goal of this work is to understand how flow variations affect hydrothermal fluxes and subseafloor biological production. I use numerical models and laboratory studies to investigate these processes, and I develop new observational techniques and instrumentation to verify model predictions.
EDUCATION	<b>University of Washington</b> , Seattle, Washington, USA Ph.D., Oceanography (Marine Geophysics), June 2007 <ul style="list-style-type: none"><li>• Dissertation Topic: “Tidally-Forced Flow Variability Within Mid-Ocean Ridge Hydrothermal Systems: Models and Measurement Techniques”</li><li>• Advisor: William S. D. Wilcock</li></ul> M.S., Oceanography (Marine Geophysics), May 2004 B.S., Oceanography (Physical), June 1999
HONORS AND AWARDS	Lamont–Doherty Earth Observatory Postdoctoral Fellowship (2007-2009)  Theodore and Marie Sarchin Graduate Fellowship in Oceanography (2006)  NASA Space Grant Summer Fellowship (1999)  Mary Gates Research Scholarship (1998)  Best Undergraduate Presentation at the Puget Sound Research Conference (1998)  National Merit Scholarship Commendation (1991)
ACADEMIC EXPERIENCE	<b>Lamont–Doherty Earth Observatory</b> , Palisades, New York, USA

*Lamont Associate Research Professor* **July, 2014 – Present**

*Lamont Assistant Research Professor* **July, 2010 – June, 2014**

*Doherty Assistant Research Scientist* **January, 2010 – June, 2010**

*Postdoctoral Research Fellow* **September, 2007 – December, 2009**

**University of Washington, Seattle, Washington, USA**

*Research Assistant* **September, 2000 – June, 2007**

Includes current Ph.D. research, Ph.D. and Masters level course work and research/consulting projects.

*Teaching Assistant* **January, 2001 – June, 2005**

Assisted in teaching several courses covering a broad range of topics. Duties included grading, providing supplementary lectures, office hours, and web development.

- Envir215 Earth, Air, Water: The Human Context, Spring 2005
- Ocean410 Marine Geology and Geophysics, Autumn 2004
- Ocean451 Fluid Dynamics Laboratory, Winter 2002
- Ocean485 Fluid Dynamics Laboratory, Winter 2001

STUDENTS  
ADVISED

Jean-Arthur Olive (LDEO Postdoctoral Fellow)

Robert Colgan (LDEO Summer Intern, 2012)

Peter Ferencevych (LDEO Summer Intern, 2012)

Hannah Moore (LDEO Summer Intern, 2009)

COMMITTEE  
SERVICE

Member: NSF Ocean Observatories Initiative Facilities Board

Co-Chair: NSF Ocean Observatories Initiative Data Dissemination and Cyber-Infrastructure Committee

Founder: Lamont Real-Time Earth Initiative

Member: Lamont Strategic Planning Committee

Chair: MG&G Strategic Planning Committee

Member: LDEO Advisory Committee for Academic Affairs & Diversity

Member: LDEO Website Advisory Committee

Member: LDEO Observatory Technical and Innovation Center Steering Committee

PAPERS IN  
PREPARATION

Olive, J.-A., and **T. J. Crone** (In Prep) Smoke without fire: How long can thermal cracking sustain hydrothermal circulation in the absence of magmatic heat?

**Crone, T. J.**, Kinsey, J., and E. Mittelstaedt (In Prep) Estimating the total heat output of the ASHES hydrothermal field using the autonomous underwater vehicle Sentry.

**Crone, T. J.** and M. Tolstoy (In Prep) A 4-Dimensional Analysis of poroelastically triggered earthquakes at 9°50'N East Pacific Rise.

MANUSCRIPTS  
IN REVIEW

Barreyre, T., J.-A. Olive, **T. J. Crone**, and R. A. Sohn (Submitted) Depth-dependent permeability and heat extraction at basalt-hosted hydrothermal systems across mid-ocean ridge spreading rates, *Geochem. Geophys. Geosyst.*.

#### FUNDING SUMMARY

**Career Total: \$1,402,429**

#### SELECTED PRESENTATIONS

“Measuring and Modeling Fluid Flow within Mid-Ocean Ridge Hydrothermal Systems”, Tenure review presentation, 22 March 2017.

“Real-Time Earth”, Presentation to the Columbia Office of Alumni and Development, 20 September 2016.

“Real-Time Earth: Realizing the Future of Earth Science”, LDEO Open House public lecture, 8 October 2016.

“Real-Time Earth: Strategic Initiative Update”, Presentation to the La-

mont Advisory Board, Columbia Club of New York, 14 September 2016.

“Inner Space: Doing Science in the Deep Ocean”, The Explorer’s Club, 24 October 2015, **Invited**.

“Mid-Ocean Ridge Hydrothermal Systems: How Do They Work?”, Sparkstravaganza, 24 June 2015.

“The spaghetti monster: A very small aperture hydrophone/geophone array to map hydrothermal fluid pathways using beam forming”, OOI NOVAE Workshop, 21 April 2015.

“Modeling at Axial Seamount: Connecting measurements to understanding”, OOI NOVAE Workshop, 20 April 2015, **Invited**.

“I (heart) poroelasticity”, Geodynamics Lecture, Woods Hole Oceanographic Institution, 5 March 2015, **Invited**.

“Using the VentCam and Optical Plume Velocimetry to measure high-temperature hydrothermal flow rates in the ASHES vent field on Axial Volcano”, AGU Fall Meeting, 15 December 2014 **Invited**.

“Real-Time Earth: A New Strategic Initiative”, Presentation to the Lamont Advisory Board, LDEO, 10 December 2014.

“Emerging technologies for measuring fluid flow rates and properties in mid-ocean ridge hydrothermal systems”, Presentation to the Schmidt Ocean Institute, LDEO, 20 September 2013.

“Measuring the Deepwater Horizon Oil Leak Using Optical Plume Velocimetry”, LDEO Summer Intern Presentation, 5 July 2012.

“Measuring the Size of the Deepwater Horizon Oil Leak: Science in the Media Spotlight”, School of International and Public Affairs Lecture, 25 June 2012, **Invited**.

“Way of the Water: BP Oil Spill Panel”, Barnard College, 10 April 2012, **Invited**.

“Lessons learned: Estimating the flow from the Deepwater Horizon oil leak using optical plume velocimetry”, Sustainable Development Seminar Series, Earth Institute of Columbia University, 18 October 2011, **Invited**.

“Using the VentCam flow measurement system to measure flow rates in

hydrothermal systems at Axial Seamount”, Axial Seamount RSN Science Workshop, 5 October 2011.

“Measuring the size of the Deepwater Horizon oil leak: Science in the media spotlight”, *R/V Thomas G. Thompson*, 27 August, 2011.

“Measuring the Deepwater Horizon oil leak using optical plume velocimetry: Science in the media spotlight”, School of International and Public Affairs Lecture, 27 June 2011, **Invited**.

“Estimating the size of the Deepwater Horizon oil leak using optical plume velocimetry”, Rhodes College, 23 February 2011, **Invited**.

“Estimating the size of the Deepwater Horizon oil leak using optical plume velocimetry”, LDEO Colloquium, 21 January 2011 **Invited**.

“Estimating the size of the Deepwater Horizon oil leak using optical plume velocimetry”, AGU Fall Meeting, 14 December 2010.

“Measuring the size of the Deepwater Horizon oil leak: Science in the media spotlight”, Old Dominion University, 11 November 2010, **Invited**.

“Measuring the size of the Deepwater Horizon oil leak: Science in the media spotlight”, Noon Balloon Lecture, Columbia University, 5 October 2010, **Invited**.

“Estimating the magnitude of the spill”, LDEO Director’s Circle Lecture, 25 September 2010, **Invited**.

“The 2010 Deepwater Horizon oil release: An oceanographic perspective”, Ocean 101 Lecture, Columbia University, 14 September 2010, **Invited**.

“Measuring and modeling fluid flow in hydrothermal vents and other such deep-water places”, *R/V Thomas G. Thompson*, 19 August, 2010.

“Poroelastically triggered earthquakes at the East Pacific Rise: A new view of permeability in young oceanic crust”, Boise State University, 26 April 2010, **Invited**.

“The sounds and sights of hydrothermal vents: Measuring flow using passive acoustics and optical image analysis”, *R/V Atlantis*, 31 December 2009.

“Using two-dimensional models of poroelastic fluid flow to constrain the

permeability structure of young oceanic crust”, Ridge 2000 Integration and Synthesis Workshop, 2 October 2009, **Invited**.

“Modeling and measuring fluid flow in mid-ocean ridge hydrothermal systems”, OOI Regional Scale Nodes Office, 11 August 2009, **Invited**.

“Report on the Marine Geoscience Leadership Symposium”, Lamont Leadership Forum, 4 June 2009, **Invited**.

“Using two-dimensional models of poroelastic fluid flow to constrain permeability in young oceanic crust”, Marine Geoscience Leadership Symposium, 23 March 2009.

“Two-dimensional models of poroelastically-controlled earthquake triggering at the East Pacific Rise”, AGU Fall Meeting, 16 December 2008.

“Ocean circulation within Earth’s crust”, Earth Institute Postdoc Orientation, 12 Sept 2008, **Invited**.

“Poroelasticity and its implications for seafloor processes”, WHOI G&G Seminar, 17 June 2008, **Invited**.

“Seafloor fluid flow: Making measurements of a keystone process”, WHOI Guest Seminar, 16 June 2008, **Invited**.

“Optical flow: Using image analysis to measure hydrothermal fluid fluxes”, LDEO Series on Image Analysis, 5 June 2008, **Invited**.

“Hydrothermal processes at mid-ocean ridges”, LDEO Summer Intern Orientation, 4 June 2008, **Invited**.

“I (heart) poroelasticity - Part 2: Models , measurements , and implications of poroelastic processes in mid-ocean ridge hydrothermal systems”, LDEO MG&G Seminar, 14 May 2008.

“I (heart) poroelasticity - Part 1: Theory and applications ”, LDEO Geodynamics Seminar, 2 May 2008.

“Models and measurements of tidally-forced flow variability within mid-ocean ridge hydrothermal systems”, University of Washington Applied Physics Lab, 15 November 2007, **Invited**.

SYNERGISTIC  
ACTIVITIES

Member: American Geophysical Union

Lead Organizer: LDEO Joint MG&G–SG&T Seminar Series (2008-2009)

Educational Outreach:

- LDEO High School Intern Program Mentor
- LDEO Summer Intern Program Mentor
- Ocean Inquiry Project Instructor ([www.oceaninquiry.org](http://www.oceaninquiry.org))
- School of Oceanography Outreach Volunteer
- Developed several hands-on fluid dynamics experiments for the School of Oceanography's Open House

Selected Conferences and Workshops:

- OOI NOVAE Workshop, Seattle, WA, 21 April 2015.
- Marcus Langseth Science Oversight Committee (MLSOC) Annual Meeting, San Francisco, CA, 14 December 2014.
- UNOLS Deep Submergence Science Committee (DeSSC) Annual Community Meeting, San Francisco, CA, 14 December 2014.
- UNOLS Deep Submergence Science Committee (DeSSC) New User Program (Session Leader), San Francisco, CA, 13 December 2014.
- Earthcube End User Domain Workshop for Deep Sea Processes and Dynamics, Narragansett, RI, 2013.
- Science Planning Meeting for OOI Regional Scale Node at Axial Seamount, Seattle, WA, 2011.
- Limits to Life C-DEBI Workshop, Redondo Beach, CA, 2011.
- Deepwater Horizon Oil Spill Scientific Symposium, Baton Rouge, LA, 2010.
- Ridge 2000 Community Meeting, Portland, OR, 2010.
- Marine Geoscience Leadership Symposium, Washington DC, 2009.
- Ridge 2000 East Pacific Rise Integration and Synthesis Workshop, Cotuit, MA, 2008.
- Ridge 2000 Endeavour Integration and Synthesis Workshop, Seattle, WA, 2008.
- Ridge 2000 Mantle to Microbe: Integrated Studies at Oceanic Spreading Centers, Portland, OR, 2008.
- Ridge Theoretical Institute, Mammoth Lakes, California, 2006.
- Ridge 2000 Progress and Planning Meeting, Vancouver, BC, Canada, 2005.
- Cyprus Field School and Conference, Cyprus, 2005.
- InterRidge Theoretical Institute, Pavia, Italy, 2002.

PROFESSIONAL  
EXPERIENCE

**Timothy J. Crone Consulting, LLC.**, New York, NY

*Principal*

**April 2011 – Present**

Scientific consulting services, video image analysis, hydroacoustic monitoring, data analysis, visualization, reporting, expert witness testimony.

**Global Remote Sensing, LLC.**, Seattle, Washington

*Scientific Consultant*

**March 2006 – July 2006**

Geoacoustics application development, experiment design and assess-

ment, acoustic data analysis and visualization.

**The Glosten Associates, Inc.**, Seattle, Washington

*Scientific Consultant*

**October 2004 – December 2004**

Dye study design, data analysis and visualization.

**Evans-Hamilton, Inc.**, Seattle, Washington

*Oceanographer II*

**May 1996 – May 2000**

Oceanographic consulting on a wide range of physical oceanographic projects for government and industry, including environmental remediation, sewage outfall planning, sediment transport monitoring, and current measurements and modeling for exploration/production operations.

SEAGOING  
EXPERIENCE

Jul 2014: ***R/V Atlantis***

- Chief Scientist
- Axial Seamount, field testing VentCam and DEMS camera using ***DSV Alvin***

Aug 2011: ***R/V Thomas G. Thompson***

- Axial Seamount, deploying VentCam as a data collection base station for the Sensorbot array using ***ROV ROPOS***

Aug 2010: ***R/V Thomas G. Thompson***

- Axial Seamount, field testing of VentCam flow meter using ***ROV Jason***

Dec 2009: ***R/V Atlantis***

- East Pacific Rise, field testing of VentCam flow meter, participant on ***DSV Alvin*** dives 4577 and 4584

Jan 2008: ***R/V Langseth***

- Gulf of Mexico, air-gun calibrations

Aug/Sep 2005: ***R/V Atlantis***

- Endeavour Segment, deployment of vent hydrophone, participant on ***DSV Alvin*** dive 4137

Sep 2004: ***R/V Thomas G. Thompson***

- Endeavour Segment, deployment of hydrophone using ***ROV ROPOS***

Aug 2004: ***R/V Point Lobos***

- Monterey Canyon, two cruises, deployment/recovery of SlowFlow meter using ***ROV Ventana***

May 2004: ***R/V Atlantis***

- Northeast Pacific, acoustic telemetry mooring deployment

Sep 2000: ***R/V Atlantis***

- Endeavour Segment, participant on ***DSV Alvin*** dive 3616

Jul 2000: *R/V Calabar Carrier*

- Bight of Benin, Nigeria, current meter recovery/redeployment

Mar 2000: *R/V Calabar Carrier*

- Bight of Benin, Nigeria, current meter deployment

1998–2000: *R/V Reflux*

- Puget Sound, numerous cruises in Budd Inlet, Elliot Bay, Hylebos Waterway, and Willapa Bay

Apr 1999: *R/V Thomas G. Thompson*

- Puget Sound, CTD tow-yos
